

Talking on the Radio

BIF Communications Series

Do you get tongue-tied when you talk to ATC? You can solve this problem in your car or while exercising with your iPod. The BIF Communications Series, a three-hour CD set works just like your eighth-grade Spanish class, with repetition exercises, response exercises, and useful tips.

- Get what you want from ATC
- Speak like a professional
- Stop missing radio calls
- The most useful word on the radio
- The two words you should never say on the radio
- Avoiding the most embarrassing radio mistake
- Flight following without fear

Flying your own aircraft remains the single most effective way to do business in multiple locations. With the reduction in regional airline service, it simply isn't possible to do business in Syracuse and Rochester and be back in Manhattan the same day. When you fly, you do business on your own schedule, not someone else's.

Learning to fly typically takes several months. You can take a year or two but it won't be cheap. You can learn to fly in two weeks, but that will be a full-time adventure you will remember for the rest of your life.

Learning to fly is a great adult challenge – not impossible, but requiring some dedication. Piloting an aircraft for pleasure is a fulfilling experience. And by flying yourself, your vacation home becomes that much more useful.

Best in Flight is conveniently located at Morristown Airport, 20 minutes west of the Holland Tunnel. We are five minutes from Convent Station, a direct train from New York's Penn Station. We will pick you up at the station.

Best in Flight offers hours to suit your needs including early morning and evening flights.

Call the Chief Pilot, Robert Hadow, to discuss your requirements.

Why the Best Instruction?

Flying is not a just hobby. It is also serious business.

Flying may be as easy as driving a car, but you don't drive a car two miles up. You don't have to talk to air traffic controllers when you drive. You need to understand what makes the airplane fly, the weather, and air regulations – the aeronautical decision making tools to exercise judgement in the air.

Best in Flight instructors each have a minimum of 2000 hours accident-free pilot-in-command time.
