

Private Pilot Ground School

BEST IN FLIGHT

Winter Session — Jan - Feb 2013

Tuesday Evenings 7:00 p.m. to 10:00 p.m.

Linden Airport, Hangar 400

The Best in Flight Private Pilot Ground School is an intensive eight-week course that provides the solid foundation you need for developing aeronautical judgement, to plan and fly safely, to communicate effectively, to understand your aircraft's capabilities and limitations and to anticipate its behavior under any and all flight conditions — so you can safely get the most possible enjoyment out of your flying experience.

Weekly classroom sessions are supplemented with reading assignments, flight planning exercises, and selected on-line mini-courses, together with hands-on experience planning a actual flight. This is not simply a written test prep class; it is a complete ground school.

Graduates of Best in Flight ground schools are invited to attend as a refresher, free of charge. And still ... all the pizza you can eat.

Class Date	Subject Matter
-------------------	-----------------------

08 January	Introduction and Definitions; Basic Aerodynamics
15 January	Federal Aviation Regulations, Radio Communications
22 January	Navigation, Sectional Chart, AFD, Flight Logs
29 January	Flight Planning
05 February	Cross Country Flying (using the plan)
12 February	Aviation Weather for VFR Pilots
19 February	Weight & Balance, Speed, Fuel Burn, Preflight
26 February	KLDJ Airport Services; Course Review

Private Pilot Ground School

Winter Session — Jan - Feb 2013 Tuesday Evenings 7:00 p.m. to 10:00 p.m. Linden Airport, Hangar 400

Instructor: Robert Hadow
roberth@bestinflight.net
(973) 723-8793 (o)

Tuition \$450.00

Many of the materials we use for the class are available on-line without charge — if you can afford the ink to print them. You will need current charts and publications. The school stocks them all in hard copy.
